Alger, le 21.5. 2021

**Président**

Pr Amar Tebaibia

Chers collègues, chers amis (e)

**Past président**

Pr R. Malek

Finally our congress will be held on 24-25-26 June 2021 in Algiers at the International Center of Conferences (CIC) two years after the one held successfully in Constantine.

**Vice- présidents**

Pr F. Bouali

Pr A. Yahia Berrouiguet

Pr MA. Chami

Dr S. Taharboucht

The year 2020 was a painful parenthesis caused by the COVID-19 pandemic, the origin of multiple reports of our congress, but also, unfortunately, the disappearance of many of our confreres victims of COVID-19, and to which this congress must pay tribute.

This congress will be an opportunity for national and foreign internists to expose their research work related to our specialty, but also to the experience of taking charge of COVID-19 in the country, which has been the vanguard of the fight against this pandemic.

**Secrétaire général**

Dr L. Makhlouf

This congress will also be an opportunity to renew the governing body of our scientific society, the SAMI. But the sanitary conditions linked to this pandemic impose the strict respect of certain rules.

**Secrétaire général adjoint :**

Dr A. Taleb

Thus, the number of participants at this congress must not exceed 450 registered participants, and the duration of the meetings must not exceed 45 minutes.

The conditions of renewal of the governing body of the SAMI are also modified to adapt to sanitary constraints.

**Trésorier**

Dr A. Larbi bouamrane

Thus, the candidatures fulfilling the conditions of eligibility, to know being internists and up to date of their contributions, must necessarily fill the candidature form via the SAMI website.

**Trésorier adjoint**

Dr M. Ibrir

The holding of our congress in person in this pandemic context is a challenge that our society must rise to.

Its success depends on our capacity to prove resilience in the face of sanitary constraints, but also on our will of union, cohesion and scientific sharing.
